## U.S. WRELD FLIGHT MAY BE ENDED IF SAFE PORT IN GREENLAND IS NOT FOUND

**Cruiser Raleigh Sent From Iceland to Explore and Report if Ice Conditions in Greenland Bays Are Too Dangerous; Two Planes Are at Reykjavik Awaiting Decision as to Whether They Are to Attempt Flight to United States.**

Reykjavik, Aug. 8.—A conference called by Rear-Admiral Thomas P. Magruder on the flagship Richmond to-day decided to make a final effort to find a feasible landing place for the United States army world fliers on the east coast of Greenland before reaching a decision as to whether the remainder of the flight for the present season would have to be called off.

The cruiser Raleigh of the patrol fleet has been ordered to leave to-morrow morning to investigate the ice condition on the Greenland coast and find an alternative for Angmagssalik as a landing place, the supply steamer Gertrude Rask being icebound and fogbound in that vicinity.

### DISCOVERING NEWS

Reykjavik, Iceland, Aug. 8.—A conference was summoned by Rear-Admiral Thomas P. Magruder on the flagship Richmond to-day to discuss the advisability of calling off the United States army world fliers due to ice conditions on the Greenland coast.

Early to-day the admiral sent for Captain William C. Watts of the cruiser Raleigh, Lieut. Lowen H. Smith, leader of the flight, and Major Clarence E. Crumrine of the Army Air Service, after the receipt of further discouraging news from the Danish Government that Gertrude Rask, which has supplies for the airmen off the East Greenland port of Angmagssalik.

### REPORT UNFOUNDED

The report that a safe landing place for the fliers on the east coast of Greenland had been found was declared to be without foundation and the advancing season makes further delay dangerous. The fliers declare they are willing to remain at Reykjavik until September 1, but refuse to consider the possibility of fueling at sea from a cruiser.

### OPTIMISTIC REPORTS

Washington, Aug. 8.—Army Air Service officials declared to-day no dispatches had been received from the army advance party accompanying the world fliers or from the naval convey which indicated any necessity for abandonment of the army's round-the-world flight.

### DETERMINATION EXPRESSED

Speaking in the absence of Major-General Patrick, chief of the Air Service, Major J. A. I. Rader, special aide in charge of the flight, declared that "our ships will come on just the same," even if the navy decides to withdraw the warships guarding the line of flight.

### MACLAREN'S JOURNEY

Cordova, Alaska, Aug. 8.—A. Stuart MacLaren, commander of the British aeroplane party which attempted to circumnavigate the globe and came to disaster in the Bering Sea Saturday, said in a message received here to-day that he expected to reach Prince Rupert, B.C., August 16.

Major MacLaren expressed a hope that he would reach Seattle in time to see the flight of the United States army world fliers. He expressed sympathy that had been conveyed to him from the people of Prince Rupert.

### BAD LUCK

"I have nothing more to say except that Lady Luck turned me down," concluded the message. The message came from the trawler Thelval of the Canadian fisheries patrol.

### SOVIET AGENCY IS GIVEN A REMINDER

Canada's Recognition Extends Only to Trade Matters, States Premier

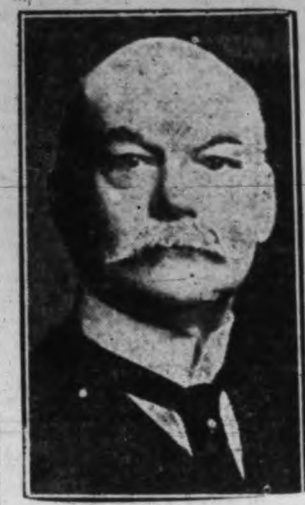

### Communist Pamphlets Used as Packing in Shipment From Russia

Ottawa, Aug. 8.—Canada's recognition of the Union of Soviet Socialist Republics, confirmed last March when its agency was established in Montreal, extends only to trade matters. A sharp reminder of this was conveyed by Premier King to the Soviet agent, Alexander Yazykoff, in the course of conferences which have been progressing for three days in Ottawa.

The Premier stated to-day there was no serious clash between the Russian agent and the Canadian Government. It had been necessary, however, to define the extent of the agency's status in Canada, because of the seizure some time ago of private matter used as packing for some documents and effects of the Soviet agent, shipped from Leningrad to Montreal. The questionable literature dealt in communist doctrine, broadly differing from Canadian religious and political creeds.

(Continued on page 2.)

## COMES TO CANADA FOR BRIEF VISIT; Hon. P. C. LARKIN

Quebec, Aug. 8.—Hon. P. C. Larkin, Canadian High Commissioner in London, arrived here to-day on the steamship Montclair.

## PARIS CONFERENCE ON WAR DEBTS IS PLAN SUGGESTED

London, Aug. 8.—The Allied delegates to the International Conference this afternoon discussed the feasibility of holding a conference in Paris in the near future to discuss the question of inter-allied war debts.

The proposed conference would be entirely separate from the other Paris four powers, which will concern themselves with the allocation of the reparations payments.

Observers at the International Conference believe it will be definitely decided to hold the debt discussion in Paris at an early date.

## Hon. H. S. Beland To Attend Narcotic Drug Conference

Ottawa, Aug. 8.—Hon. H. S. Beland, Minister of Health, will represent Canada at the world conference on the narcotic drug traffic to be held in November in Geneva. It was announced officially to-day.

## VANCOUVER EXHIBITION WILL OPEN TO-MORROW

Vancouver, Aug. 8.—Vancouver's fourteenth annual exhibition will open to-morrow morning and continue until August 18.

## RATE INQUIRY IS TOO LATE TO SUIT BRITISH COLUMBIA

Adjustments Following Investigation Sept. 17 Will Help Part of Fruit Crop

## Apples May be Benefited; Oliver Prepares to Present Province's Arguments

The Railway Board's action in fixing September 17 as the date on which protests against present railway rate conditions in Western Canada will be heard is not regarded as entirely satisfactory by the Provincial Government.

Disappointment that the board had not decided to go into the present chaotic rate situation sooner in order to facilitate the movement of the fall fruit crop of the Okanagan Valley was expressed by Premier Oliver to-day.

"Any adjustment that may be made as a result of the hearing on September 17 the Premier remarked, will be too late to affect the movement of such fruits and peaches and plums, but it might help the apple crop, although early apples are moving out of the interior already, and that way the hearing might be of assistance this year, but I had hoped that more immediate action would be taken."

"Immediate assistance is required by the interior growers," Mr. Oliver asserted. "With the low Crown's Nest rates applying on westbound products and not on our products moving eastward the British Columbia growers are in a serious position as the competition from the East in many prairie markets will become almost insuperable."

Preparations for the fight which the Province will conduct before the Railway Board at the September hearing are under way now. The Premier's secretary has arranged a deal of valuable data and, if necessary, could appear before the board immediately. It is generally expected here that Mr. Oliver himself will present some of the Government's arguments to the railway commissioners.

## ZANNI, ARGENTINE WORLD AIRMAN, FLEW SAFELY TO CALCUTTA

Calcutta, Aug. 8.—Major Zanni, the Argentine aviator engaged in an attempted flight around the world, arrived here to-day from Isri.

## FIRE LOSSES

Toronto, Aug. 8.—Fire losses in Canada during the week ended August 6 are estimated by The Monetary Times at \$295,200, as against \$419,500 during the corresponding week of last year.

## CITY WAS SHAKEN BY TWO DISTINCT TREMORS

**Meteorological Officials Believe Disturbance May Have Been Caused by Slight Fracture in Straits.**

An earth disturbance which probably had its origin not a great distance from Victoria gently rocked the city during the night.

The tremors were so pronounced that light sleepers were awakened by the oscillation of buildings and the swaying of suspended objects.

Meteorological authorities are of the opinion that the tremors originated from a slight fracture in the surface of the earth's strata beneath the water of the Straits of Juan de Fuca.

## British Labor M.P. Will Visit Canada

London, Aug. 8.—(Canadian Press Cable).—For the purpose of investigating Canadian farming and industrial conditions on behalf of the Independent Labor members, A. W. Haycock, labor M.P. for West Hants, and formerly of Kingston, Ont., will visit Canada during the present parliamentary recess. He will give a number of addresses on his Canadian tour.

## FELT ALL OVER CITY

The tremors were felt in all parts of the city and more definitely on the districts of Foul Bay, Dallas Road, the Willows and in Victoria West.

Mr. Denison states that the record was most pronounced on the North South instrument, indicating that the waves traveled in a N.E. direction.

## FELT AT HUNTINGDON

Huntingdon, B.C., Aug. 8.—Residents of Huntingdon, Sumas and the district for some six miles around here were awakened at about 3 o'clock this morning by an earthquake tremor which knocked small articles from mantelpieces and other high places in their homes. No damage was done.

## Branch of Klan Has Been Formed In Niagara Falls

Niagara Falls, Ont., Aug. 8.—That a branch of the Ku Klux Klan has been established here was manifested by the burning of a fiery cross on a commanding height at Fairview last night.

## SEVERAL PROBLEMS BEFORE CONFEREES

Allied and German Discussion in London Will Continue Next Week

## Germans Insist on Early Military Evacuation of the Ruhr Area

London, Aug. 8.—Despite the rapid progress being made toward an agreement with the Germans, the international conference to arrange for putting the reparations plan into effect is not likely to end before the middle of next week, it was stated by a British spokesman to-day. Several outstanding problems remain to be settled.

## TO ENDOW CONVENT

Quebec, Aug. 8.—Endowment of a convent for free education of children of residents of the Island of Anticosti is to be made by Senator Menier, the French chocolate king and owner of the island.

## New Companies in Canada Fifty-six

Toronto, Aug. 8.—New companies to the number of fifty-six and authorized capital of \$7,738,825 were reported to The Monetary Times during the week ended August 2, as against sixty-nine companies with \$12,890,000 capital during the corresponding week last year.

## VANCOUVER CITY COUNCIL URGES SEVERAL CHANGES IN B.C. EDUCATION SYSTEM

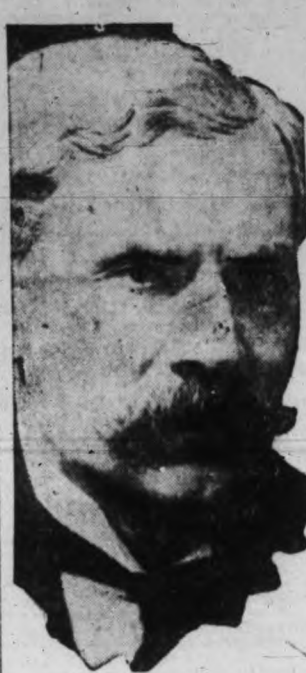

Vancouver, Aug. 8.—At a meeting of the Vancouver City Council this morning the following proposals were drafted to be presented to the commissioners conducting a survey of British Columbia's educational system:

1. That the school board include two student representatives.

2. That the school board take over the entire cost and management of high school and technical education.

3. That Oriental children over school age be charged fees while attending public school.

## SIGNS NEW BRITISH PACTS WITH SOVIET RUSSIAN GOVERNMENT

RT. HON. RAMSAY MACDONALD

## EIGHTY ADDRESSES TO-DAY AT SECTION MEETINGS OF BRITISH ASSOCIATION IN CITY OF TORONTO

Toronto, Aug. 8.—For the second day of the annual meeting of the British Association for the Advancement of Science here the programme had in all eighty addresses for scientific digestion—thirty in the morning and fifty in the afternoon.

In the morning Sir N. Shaw told the mathematicians and physicists what would happen if the earth went dry—not a Canada and the development of the St. Lawrence received attention from N. Marsh, who took the place of J. B. Challenier, presenting the paper, and D. W. McLachlan, who also discussed the Great Lakes system of navigation. F. A. Gaby of the Hydro-Electric Power Commission of Ontario gave the engineers a review of electrical development in Ontario during the last decade, featuring the great accomplishment of engineers at Chippewa.

## 15,000 WORKERS FOR SASKATCHEWAN GRAIN FIELDS ARE NEEDED

Regina, Aug. 8.—Approximately 15,000 men will be required to harvest and thresh the crop in Saskatchewan this fall, the Provincial Government estimates. Of this number it is estimated 5,000 will be available locally.

## HEAVIER STEEL ON E. AND N. LINE

Eighty-Pound Steel to be Laid From Victoria to Parksville

## Culvert Finished North of Ladysmith For Track and Highway

In pursuance of its policy of steadily improving the Esquimalt and Nanaimo Railway, the company is now laying eighty-pound steel on six miles of its tracks, which when completed will bring the replacement of lighter steel by heavier metal throughout the line from Victoria to Parksville.

## J. M. MacDonald is To Stand Trial in Vancouver Court

Vancouver, Aug. 8.—Reserving his defence to a prosecution arising out of a fight at Green Bay, Nelson Island, on July 21, J. M. MacDonald, K.C., was committed this morning by Magistrate H. C. Alexander for trial in a higher court on a charge of assault occasioning actual bodily harm.

## POLICE HOLD MAN IN REVELSTOKE TILL INQUEST COMPLETED

Revelstoke, Aug. 8.—David Calder, who was injured in a shooting affray here two weeks ago, is dead.

Calder is being held pending the holding of the coroner's jury next Monday.

## TWO CANDIDATES RIMOUSKI RIDING

Quebec, Aug. 8.—E. Sassez, K.C., of Rimouski, will contest the riding of Rimouski in the Conservative interests in the Federal by-election to be held on September 2 next against Sir Eugene Fiset.

## GENERAL AND COMMERCIAL TREATIES SIGNED TO-DAY BY BRITISH AND SOVIET AGENTS

Agreements Were Negotiated at Conference in London; Contrary to Custom, King Did Not Sign Documents; Opposition Press in Britain Vigorously Attacks Course Taken by MacDonald Government.

London, Aug. 8.—The general and commercial treaties between Great Britain and Soviet Russia, which were negotiated by the Anglo-Soviet conferees, were signed at 6 o'clock this evening by representatives of the two nations.

London, Aug. 8.—The treaty and commercial agreement between Great Britain and Soviet Russia, which will be signed this evening, does not contain the name of King George, because the Russians have no titular head of their Government. Thus the Russians will sign for their Government as a whole and the British officials only for their Government, with no mention of the sovereign. This raises the question of whether succeeding British Government will be bound by a treaty omitting the name of the King.

## MAN EXECUTED

Ville Platte, La., Aug. 8.—Eusebe Vidrine, confessed slayer of five men in the last three years, was hanged in the jail here to-day for the murder last May of Robert Lee Higgins Jr.

## FIRST OF ITS KIND

In the entire history of British treaty making this will be the first time the King will not sign the treaty and is causing considerable comment in London. There has been an intimation in some circles that the Soviet officials are not willing to sign a treaty bearing the signature of the British monarch, but an official British statement explains that legal authorities have decided that the failure of any single executive to sign for the Soviet Government makes it unnecessary for King George to sign the document.

## TO MAKE A TREATY

One London newspaper, in describing "the hastily-drawn-up treaty," which promises that the British Government will guarantee a loan to the Soviets if they meet conditions laid down by the British Government, says this unusual document is really a treaty to make a treaty in case the parties can agree.

The opposition press is bitter in its assaults on Premier MacDonald and Arthur Ponsonby and asserts that Mr. Jaffe, who is the chief negotiator on behalf of the Soviet Government, is the man who "surrendered Russia to Germany" at Brest-Litovsk.

## SECURED WORK OF PERMANENT VALUE

British Special Service Squadron Winds up Its Efforts

Balance in Hand to be Spent on Bunting For City

The value of the dredging of the berthing space at Ogden Point piers to Victoria ocean shipping was emphasized by Secretary W. Miller Higgs in replying to a vote of thanks at the concluding meeting of the British Special Service Squadron Entertainment Committee last evening.

Mr. Higgs pointed out that apart from the dredging of the berthing space, the work which had satisfied the visitors and the citizens, permanent results had accrued to the shipping of the harbor by the dredging of the berthing space, which had been done by the British Special Service Squadron.

He hoped the public appreciated that it was the only port in the Empire where the battleships had been able to enter under their own steam.

In addition, by having the battleships to berth, a fact for which they owed thanks to J. P. Forde, the district engineer of the Department of Public Works.

### SLIGHT DECREASE IN PRICE OF WHEAT ON FRENCH MARKET

Paris, Aug. 8 (Canadian Press Table)—There has been a slight fall in the price of wheat here, the de-

cline being partly due to the higher exchange rate of the franc, partly to the news of better crops in Canada and also partly to the improved wheat crops in France. M. Queuille, Minister of Agriculture, declares that in France the harvest this year should provide nine-tenths of the wheat needed by this country. He adds that the way to prevent a further increase in the price of bread is to encourage the cultivation of wheat at home, rather than to abolish the tax on foreign wheat.

"My wife is like an angel." "Really?" "Yes. She's always up in the air, always harping on something, and she never has anything to wear."

### The Goodyear Selected Dealer Has a Complete Line of Tires

NO matter what your tire needs as to price, construction or size, the Goodyear Selected Dealer has a Goodyear Tire which will give you Goodyear quality and Goodyear value.

You may have a light car which you only intend to drive for a few months longer. You may not need the peerless road-grip of the All-Weather Tread. Road-grip may be important to you. You may want the long mileage of the

Goodyear Cord. You may want the supreme comfort of the Goodyear Balloon. You may not want to change your wheels for Balloon Tires or you may like the new small wheels.

In any case, the Goodyear Selected Dealer can give you a tire of full Goodyear quality, well able to serve you faithfully and economically beyond your expectations.

Let the Goodyear Selected Dealer tell you about the Goodyear complete line, explain the advantages of each and tell you of the service they are giving your neighbours.

Goodyear means Good Wear

### WINDSOR WELCOMES MUNICIPAL LEADERS

Union of Canadian Municipalities Meets in Western Ontario City

Windsor, Ont., Aug. 8.—Extended the freedom of the city of Windsor by its chief executive, Mayor F. J. Mitchell, yesterday afternoon, visiting delegates to the twenty-fourth annual convention of the Union of Canadian Municipalities were further honored at a civic banquet last night.

### LIQUOR SMUGGLED INTO THIS COUNTRY

Traffic From United States Into Prohibition Provinces Is Discovered

Ottawa, Aug. 8.—That liquor is being smuggled from the United States into Canada for consumption is one of the curious revelations of the investigation of liquor activities which the Canada and United States Governments have been conducting for some time.

"Moonshine" is being regularly brought over into the "dry" provinces of Canada, it was stated today by a high official of the Government, who added that a pipeline seemed to be the next logical step for the highly organized smuggling traffic which is going on. The smuggling industry on the border has developed a return traffic for its land and water vehicles and nothing short of an army and navy could cope with the smugglers. The Department of Customs has made a special appropriation to cover the expense of increased protection at all border points and seaports. The length of the international boundary and the huge profit in smuggling liquor, drugs, tobacco and textiles, however, makes it difficult for the police forces of the two countries to deal with the daring and numerous smugglers who are engaged in the traffic.

### Floor Gave Way While Negroes Were Dancing; Six Killed

Buckeye Lake, Ohio, Aug. 8.—While 500 negroes were dancing at the pavilion here last night, the south end gave way and crashed into the water below, six negroes being killed and six severely injured.

### BIG CONVENTION IN TERMINAL CITY

Vancouver, Aug. 8.—Fully 7,000 members of the Dramatic Order of Knights of Khorassan and their wives are expected in Vancouver on Thursday, Friday and Saturday of next week at the Pacific Northwest convention of the order which will be held here. Most of the sessions will be open to the public, and as these will take place largely at the exhibition grounds, the presence of the lodgesmen will add color and gaiety to the scene at the fair.

### Ottawa Prepared To Send Delegates To Empire Event

Ottawa, Aug. 8.—Canada stands ready to appoint delegates to the proposed conference in London next fall to discuss the future of the Empire. Dispatches to this effect were sent by the Canadian Government last night to the Colonial Secretary J. H. Thomas.

In the course of a discussion Premier Mackenzie King said that if the conference were held in London, Dandurand, Government leader in the Senate, and Hon. E. M. Macdonald, Minister of Defence, would probably be the Government's representatives, with Dr. O. D. Skelton, counsel for the Department of External Affairs, acting as adviser. These three will be in Europe for the meeting of the Empire meeting in September.

The Canadian Government reserves the right to appoint its delegates. Premier King stated in answer to a question as to whether he favored the idea of sending leaders of Opposition to Empire conferences. The conference now under discussion was a preliminary one and did not call for the attendance of Government leaders. But his general attitude to the question was that since the Government must be responsible for any policy adopted and the leader of the Opposition must perform reserve the right to criticize policies, there could be no useful purpose served by the attendance of the leader of the Opposition at the formal Empire conferences.

### TRANSCONTINENTAL TRAIN SERVICE COAST STEAMSHIPS

The Continental Limited, electric lighted, all-steel train leaves Vancouver at 3:50 p.m. daily, and runs through to Montreal, serving all large centres.

Sa. Prince Rupert or Prince George leaves Vancouver Monday, Wednesday and Saturday for Prince Rupert, the Monday boat also making the Anyox call, and the Wednesday boat making the Stewart call.

Rail connections at Prince Rupert daily except Sunday for Jasper National Park and Eastern points. Tickets issued and baggage checked through from Victoria.

City Ticket Office, Canadian National Railways, 511 Government St.

### BELIEVES EDUCATION IS TOO FREE IN B.C.

J. Lockington, Vancouver, Advocates Fees in High Schools of Province

He and Others Stated Views to School Survey Commission

Vancouver, Aug. 8.—There is too much free education in British Columbia, in the opinion of James Lockington, principal of a local private school for boys, who appeared before the School Survey Commission yesterday as a representative of the Boy Scouts' Association. Free education in the grade schools was quite right, Mr. Lockington admitted in reply to questions from the commissioners, but there should be fees for the high schools, he said. The money so saved could be used to advantage for bursaries and scholarships to encourage "willing and obedient pupils," he advised. He also advocated apprenticeship bursaries and a system whereby local industries of all kinds should be compelled to make places for apprentices as they finished their school courses.

Mr. Lockington criticized the present "code" because there was too much compulsory, and he thought it was a realization of this fact that accounted for a recent tendency towards promotion by recommendation of the teacher. Speaking of the Boy Scouts as "the greatest outdoor school in the world," he held that the enthusiasm that was engendered in the scout system where the boy did what he wanted most to do, could be attained in the public schools.

Speaking personally, Mr. Lockington declared his belief that a serious mistake was being made in not teaching religion in the schools and not using the Bible as a textbook.

### HONOR SYSTEM

Captain R. S. Macmahon endorsed the views put forward by Mr. Lockington and added a strong appeal for the introduction of the honor system in the discipline of public schools.

Captain Macmahon also advocated the use of something like the correspondence school system to supply teachers in rural schools with lectures and lessons prepared by experts. He suggested that the radio might be used to give rural pupils direct teaching by experts.

### ARTS AND CRAFTS

A strong plea for a school of arts and crafts was put forward on behalf of the British Columbia Art League by A. L. Mercer, president; John Radford, G. T. Sharp and J. Leyland. Their object, they explained, was "to produce craftsmen and craftsmen from among our own boys and girls."

A training school on the cottage system for imbecile or feeble-minded children, a trade school for sub-normal children to carry on the work of the special classes for this group, and special educational provision for the supernormal were advocated by representatives of the Local Council of Women.

### NEW PRESBYTERIAN MANIFESTO ISSUED

Association Declares Church Will Continue Work After United Church Formed

Toronto, Aug. 8.—Although the union of the Methodist, Presbyterian and Congregational churches of Canada ratified by the Canadian Parliament at its recent session, will come into effect on June 10, 1925, the Presbyterian Church of Canada will continue "preserving a true continuity and in fellowship with millions of Presbyterians throughout the world," declares a manifesto issued by the Presbyterian Church Association to all churches of that denomination in Canada.

This is the first official statement of the Presbyterian Church Association since the passing of the bill. The pronouncement has been issued by the executive.

It is pointed out that voting by congregations to decide whether or not they will enter the United Church may commence on December 10, the date of the annual meeting of the Presbyterians to take the vote as early as possible after that date.

"Plans are being perfected," says the statement, "for a meeting of our General Assembly on June 10, 1925, for the preservation of the work of the Presbyterian Church."

The statement says the church will continue to engage in all the other co-ordinated activities that have signified the work of the Presbyterian Church to date.

### BRITISH TOURISTS TO VISIT VICTORIA

Thirteen Travelers Have Crossed Canada; Now in City of Vancouver

Vancouver, Aug. 8.—A party of thirteen tourists from England, personally conducted by L. J. Leonhardt, of the London office of the Canadian Pacific Railway, reached Vancouver last night after a leisurely trip across Canada. They will remain in the city until Saturday afternoon, when they will go to Victoria.

There are ten men and three women in the party and they come from different parts of England, the men being mostly of the retired business and professional class, including two Oxford undergraduates and one farmer. The tour is one of the many organized by the Canadian Pacific with the object of bringing representative Britishers to see Canada, just as so many Canadians go to see the Old Country.

Championship Boxing: Pantages Theatre, Tuesday.

2-Button Gloves

Morley's English Hand-sewn Two-button Duplex Fabric Gloves in white and natural stitched black; sizes 6, 6½, 7 and 7½. Excellent value, at, per pair **\$1.50** At Per Pair

### NAMES HEARST IN PLOT TO RUIN HIM

Alleged Jury Briber Makes Accusation Against Publisher and Assistant

New York, Aug. 8.—William J. Fallon, on trial before Federal Judge McClinton for alleged jury bribing, today testified that his trial was the outgrowth of a plot by William Randolph Hearst and Victor Watson, assistant publisher of the New York American, a Hearst paper, to ruin him.

The indicted attorney, quoting an alleged confession of Ernest Eidlitz, a former employee, told the judge his destruction had been planned because Eidlitz had revealed to Watson Fallon's possession of birth certificates of the children of a certain motion picture actress.

The defendant quoted the alleged Eidlitz confession as reported to have been made in the apartment of "Billie" Bennett, actress, in the presence of Miss Bennett, Fallon, Walker O'Neill and Mrs. Mona Lewis, who lived with Miss Bennett.

### MAIL ROBBERY LOSS PLACED AT \$55,000

Detectives and Mounted Police Follow Clue of Stolen Automobile

Montreal, Aug. 8.—While Postmaster Gaudet said today he was unable to say what the loss was resulting from the robbery of a registered mail sack from a delivery wagon here Tuesday night, various rumors put the amount as high as \$55,000.

Special investigators of the Government as well as Montreal detectives, Royal Canadian Mounted Police and post-office inspectors, today were looking into the clues supplied when a car owned by Peter Bercevitich, K.C., M.P.P., was found in front of his home in Westmount Monday night, was recovered on Wednesday at Mile End.

SAY "BAYER ASPIRIN" and INSIST!

Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians for 24 years.

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocrocinolide of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, in order to protect the public against imitation, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Inside the car was a list of instructions to mail clerks, string used to tie up bundles of mail and a "life preserver" made of a piece of rubber hose covering a piece of wood. The car is thought to have been used at some period by the bandits.

There was no trace up to this morning of the touring car stated by James Street to have contained three armed bandits and to have driven away westward at top speed with the stolen mail.

The find in Mr. Bercevitich's motor car would indicate that more than one vehicle was employed by the robbers.

### MISSOURIAN PREDICTS ELECTION OF COOLIDGE

Calvin Coolidge, Republican, is predicted to win the presidential election hands down in Missouri in the rest of the United States. If La Follette does not stir up too much dust elsewhere," states J. F. Heilung, president of the Cass Avenue Bank of St. Louis, who is spending

his vacation at Banff and Lake Louise. Mr. Heilung belongs to a new and novel voting party in the United States called the "American voters." They hold allegiance to no party and they vote on individual merit instead of by straight ticket, states Mr. Heilung.

The democratic party, he believes, has run itself out of any possible chance of victory in the coming election.

### COMMITTED SUICIDE

Philadelphia, Aug. 8.—Leaving a blood-stained note to his wife ascribing his act to financial troubles, the police said, Dr. Robert G. Leconte, internationally known surgeon, shot and killed himself in his home here last night.

Dr. Leconte's death was the third in two days among the noted physicians of this city. Dr. Duncan Despard was shot to death yesterday by a former patient, and Dr. David M. Castle died at the age of eighty-one after a long illness.

## THE FALL FAIR

OTHER years Victoria's Fall Fair has been held at a later date than is proposed this year. From the point of view of numbers in attendance and interest manifested September does not seem to have been a success. August 18 will be the opening day for the 1924 event and the earlier date is something in the nature of an experiment. It remains for the people of this district to see to it that it turns out a success.

This year's Exhibition will be held as an Exhibition in the strictest sense of the term. The officials responsible for the arrangements and the multifarious details which enter into an event of this kind are sparing no effort to make it a record. Horse racing will form no part of the attraction in the Fair grounds. Such amusement as will be provided will be of an entertaining character and will not dominate the business of the event.

Too much importance can not be placed on the meaning and significance of the annual Exhibition. This year it is being held at the very height of the tourist season and this locality should seize upon the occasion with more enterprise than ever as a means to display every form of local capacity to produce.

Not all who come to Victoria come solely for recreation. Very large numbers come in quest of information upon which to determine investments and decide new scenes of enterprise. These are keen critics. In most cases they have lived in enterprising communities which have furnished them with a fair amount of this world's goods. They are now looking for fresh surroundings in which to enjoy the fruits of their labor. But the commercial instinct remains with them and they are wise enough to realize that affluence brings little comfort unless there be something to keep them occupied. They seek that occupation in the most congenial surroundings. But if the material conditions in such surroundings as may appeal do not denote active progress they pass on and come to rest where opportunity for pleasant recreation keeps company with commercial advancement.

So the Fall Fair every year should be made an attractive business card for all those without our gates who visit it. Not a single local enterprise should be omitted from the entry list. And every activity so exhibited should be presented in the fullest and most convincing form. This is obviously the spirit which should prompt every exhibitor, and the people in general should show their interest by making attendance speak for itself.

## FEES FOR HIGH SCHOOL

WHEN the Commission which is reviewing the educational system of British Columbia heard representations in Victoria it listened to a number of arguments in favor of fees for high schools. In Vancouver yesterday the principal of a boys' private school is reported to have told the Commissioners that there is too much free education in this Province. He would limit free schooling to the grade schools.

This particular phase of our educational system is of the utmost importance to the present and future generations. It strikes at the root of a fundamental principle in the most modern interpretation of democratic aspirations because it divides, in effect, the rich and the poor where educational opportunity is involved. It seeks to prevent the boy or girl of bright intellect from entering the realms of higher education unless the parental bank balance is sufficiently large to stand the financial strain. It would have the effect of sending these young people out into the world in an immature stage of mental development. Only a partial test of individual adaptability would have been made in the grade school. It is true that many a boy or girl may have passed the entrance examination with varying degrees of brilliance, a fairly accurate sign that more exacting studies would offer no insuperable difficulties, but often only after study under the more advanced curriculum it is possible to determine the future of the young man or young woman. Will it be seriously contended, therefore, that this important test should be reserved exclusively for those who can afford to pay for it? The most reasonable argument suggests the contrary—equal opportunity.

This very naturally brings up the question of where the line shall be drawn between the free high school course and the expensive university course. Upon this question, as it is so closely allied to the fee proposal, no doubt the Commission will have something to suggest. Meantime we are of the opinion that there should be no financial bar to the entrance to high school.

In his testimony before the Commission in Vancouver yesterday the private school principal declared that best industries of all kind should be compelled to make places for apprentices as they finished their school course. We assume, of course, that this would be his proposal for the absorption of the young boys who would have to "shy" at high school fees. But the apprenticeship idea is almost as extinct

as the dodo. It died in Great Britain as soon as the advent of the technical school exposed its woeful inadequacy and inequalities.

To talk of reviving the apprenticeship system at this stage is about as logical as advocating the return of the ruffian. Take the case of the youth of fifteen who lives in a small town and whom a local industry, under the plan advocated, must absorb if he chooses a mechanical career. He is bound for five, six, or seven years in order that he may be taught his trade. He is permitted to become acquainted with the whole of his employer's mechanical equipment and at the end of his term he is, or should be, a competent journeyman. But he has gone just as far as his employer's business has allowed him. He is proficient only to that extent.

Now examine the case of the city boy who has been able to take advantage of the most modern and comprehensive machinery by reason of the fact that his employer is in a much bigger way of business. He finished his time with all the knowledge of the more advanced methods of his calling; but the young man who served in the small town for the same length of time would be a stranger in the workshop of the city boy; both of them, however, were apprenticed to the same business for the same period. Can such a system be called anything but obsolete?

The advent of technical education in Britain cured these glaring anomalies. Almost every small town now has its technical school, or facilities for technical training, so that limited advantage in the working hours of the boy employed in almost any form of industry can be made up by his introduction to the latest inventions of science during his spare hours in the evening.

## THE SPORTING INSTINCT

CANADIANS will thoroughly appreciate the kindly spirit which prompted Seattle to invite Major MacLaren to call at the Sound City and join in the celebrations which have been arranged for the arrival of the American round-the-world fliers at the end of this month.

It is unfortunate that the British contestant will not be able to visit our neighbors while in flight; but they are able to appreciate the splendid fight he has put up and are just as much disappointed in the unfortunate ending as they would have been if the American expedition had broken down.

Meanwhile the two United States aviators are waiting for an improvement in weather conditions before leaving Iceland on the last two stages to Labrador. And none will be more pleased to learn of their safe arrival on this continent than Major MacLaren himself. Fine sportsmen are these knights of the air.

## ANOTHER SILENT SERVICE

SO regular is the delivery of mail that the people of this and other communities take about as much interest in the internal organization of the postal system as they do in the culinary arrangements of the Eskimo. Nor is the lack of concern surprising; the postal service itself is to blame; it works so smoothly and there is no noise.

At the forthcoming Fall Fair, however, Postmaster Bishop intends to present a working model of a modern post office. Adding interest to this unique entry will be the entrance to the old structure which did duty in Victoria when His Majesty's mails were handled here long before the present generation was born. The internal workings will depict all the latest methods of dealing with the thousands of packages which pass through the hands of the average post office staff every day. Further realism has been imparted to them by the inclusion of a number of ingenious devices which are the work of members of the staff.

This exhibit, of course, is highly educative and its interest is centred in the fact that it presents the actual working of one branch of the public service about which little is heard except when the one letter in many millions has the audacity to go astray or does not arrive on time.

Japan has ordered 140,000 machine guns from one of the British armament firms. So does the cause of peace flourish!

Has Dr. Tolmie or Mr. Stevens been asked for advice as to how to choose a new Conservative leader for British Columbia?

Vancouver Island's development should be made a personal matter by every individual who lives on it. Thumb twirling and grumbling belong to a bygone day.

French and German delegations to the International Conference in London exchanged courtesy calls yesterday. But Germany still wants the Ruhr evacuated immediately and France has no intention of doing anything of the kind.

## NIGHTMARE LAND

From The Boston Transcript

She (in art gallery)—"So that's one of those cubist paintings. What a dreadful place Cuba must be!"

## NOT FOR US

From The Calgary Albertaian

The suggestion that the Federal Government should hand over to the three western provinces the uncompleted Hudson Bay railway as it stands, will not appeal very greatly to this Province, which has no intention of taking on any further railway burdens at the present time, and is not very much enthused by the Hudson Bay railway proposal.

## HUSBANDS IN THE WOODS

Now, my co-mates and brothers in exile, Hath not old custom made this life more sweet, Than that of painted pomp? Are not these woods More free from peril than the envious court? And this our life exempt from public haunt, Finds tongues in trees, books in the running brooks, Sermons in stones, and good in everything. I would not change it.

—Shakespeare in "As You Like It."

Dr. Frank Crane on  
"The World Goes On"

(Copyright)

IN spite of what we do the world goes on. Men may come and men may go and each generation thinks that the interests are eternal; but the world has no interests that last except those that continue from generation to generation.

We have always had the conviction that Nature is more interested in the institution than in individuals.

That is why we have taken institutions so seriously, have contended for them and have been willing to fight for them.

Knowing that his time here is so short, man has always clutched greedily at the things which remain, has always builded his hopes around the permanences.

It has always been his desire to find those satisfactions which are permanent.

In the end all moralities are nothing but the permanences.

We often tell the young to save their money because we feel that capital is permanent, while the satisfactions of the moment are fleeting. Therefore men give up sacrifice the pleasures of to-day for the more or less problematical joys of to-morrow.

There is such a thing as carrying this too far, as to-morrow may never come. A same balance between the pleasures of to-day and those that are still to come is what is needed by the same man.

It is the tendency of youth to see to-day only and to look upon old age as a negligible probability.

Against this tendency the experience of the old breaks itself in vain.

It has always been the desire of mankind to have the fulness and powers of youth together with the wisdom of old age. Unfortunately they do not go together.

We never learn how to live, nor the values of life, until we are ready to die and then it does us no good.

It is a singular thing that all men live as if they were to live forever, yet all men, some time or other, must die.

## When Hull Invaded Canada

THE American General Hull, who had seen some fighting in the War of the American Revolution and had latterly held the position of Governor of Michigan, one month before the declaration of war by the United States in 1812, took command of his army of two thousand five hundred regulars and militia, which had been for some time secretly assembling at Dayton in Ohio. It was considered at Washington that the United States armies could easily be in Canada before the defenders and inhabitants knew that a state of war existed. This clever arrangement received word of the declaration of war actually from American sources long before the outlying United States forces learned of it.

General Hull began his march toward the Canadian border of the Detroit River a full week before the declaration of war. When he reached the Miami River at the southwest corner of Lake Erie, confident that the British would be ignorant of hostile intention, he embarked all his own baggage, most of his officers' baggage, the hospital supplies, all his official papers and documents including his complete muster rolls, together with the list of several of his officers on a schooner named "Cuyahoga." The vessel sailed at once for Detroit. However, war had been declared on June 19 and word had not yet reached him. Word had, on the other hand, reached Colonel St. George, commanding at Amherstburg the pitiful British force of one hundred and fifty regulars, three hundred militia and one hundred and fifty Indians defending the line of the Detroit. On July 2, the very day on which General Hull was receiving his news of the declaration of war, the Cuyahoga was sailing serenely up the Detroit River past Fort Malden at Amherstburg when a shot from a British gun across her bows caused her hurriedly to lie to while the little British armed schooner Hunter, commanded by Lieutenant Rollette, drew swiftly alongside and made the Cuyahoga a prize.

EXTREMELY annoyed by the loss of his baggage, documents and supplies, General Hull marched on to Detroit, and almost immediately crossed the river to the Canadian town of Sandwich. On July 12 he issued a long, grandiloquent proclamation to Canadians: "Inhabitants of Canada:

"After thirty years of peace and prosperity the United States have been driven to arms. The injuries and aggressions, the insults and indignities of Great Britain have once more left them no alternative but manly resistance, or unconditional submission.

"The army under my command has invaded your country and the standard of Union now waves over the territory of Canada. To the peaceable, unoffending inhabitant it brings neither danger nor difficulty. I come to find enemies, not to make them. I come to protect, not to injure you.

"Separated from an immense ocean, and an extensive wilderness from Great Britain, you have no participation in her councils, nor interest in her conduct. You have felt her tyranny, you have seen her injustice, but I do not ask you to avenge the one or redress the other. The United States are sufficiently powerful to afford you every security consistent with their rights, and your expectations. I tender you the invaluable blessings of civil, political and religious liberty, and their necessary result, individual and general prosperity.

"In the name of my country and by the authority of my government I promise protection to your persons, property and civil rights.

This done, a body of United States troops advanced up the Thames River valley for sixty miles, mercilessly plundering the settlers to right and left. Thrice the American invaders were prevented with loss from crossing the River Aux Canards, half-way south towards Amherstburg from Sandwich, by a third of their number of British. The idea was then given up entirely.

IN the first days of August came Colonel Proctor, with sixty reinforcing regulars, sent by General Brock to take command on the frontier. Immediately he sent his allied Indians under the great Tecumseh across the Detroit River and thus cut General Hull's line of communications from Detroit to his base. The British vessels commanded Lake Erie. General Hull was doomed unless he could break through. Two hundred men sent south from Detroit for this purpose were cut to pieces by seventy Indians under Tecumseh and all the mail from Hull's army fell into British hands.

Though his forces were still overwhelming mere numbers, but undisciplined and untrustworthy, General Hull ordered the evacuation of Canada. In the early morning hours of August 8 the United States forces slunk across the river to Detroit minus their arrogance of the previous

Growth of Yeast  
Changed by Salt

Toronto, Aug. 8.—That the study of minute forms of life such as bacteria and yeast is important, not only in the prevention of disease, but also from the standpoint of commerce, was brought out by a paper read to the physiology section of the British Association here to-day. What factors, for example, aid or retard the growth and fermentative powers of yeast? H. B. Speakman and A. H. Gee of the University of Toronto have been experimenting upon this question with particular reference to the effects of salt. They find that as the concentration of salt is increased in the solution in which the yeast is living, there is a progressive slowing in multiplication of the cells though they are able to grow and ferment sugar in "wort," the nutrient solution containing as high as ten per cent of salt. Further study indicates that the power to ferment sugar is affected independently of the effect upon growth.

JAIL SENTENCES TO  
STOP SMUGGLING

Advocated by Deputation Representing Canadian Textile And Other Industries

Ottawa, Aug. 8 (By Canadian Press).—Jail sentences for professional smugglers were advocated by a deputation representing textile and other industries of Canada, which waited upon Premier King and members of the Cabinet yesterday and emphasized the gravity of the situation resulting from the smuggling of goods into this country. Percy Sparks, president of the Association of Garment Workers, acted as spokesman for the deputation and stressed the enormous extent to which smuggling had grown.

The deputation advocated stern measures to deal with the professional smuggler and suggested that if such measures were adopted steps would be taken by interested organizations to form a bureau to co-operate with the Government in the arrest of such persons.

It was said that many of the big textile firms were being driven to the verge of bankruptcy and that the country was losing an annual revenue estimated at not less than \$10,000,000 through smuggling.

Following the conference members of the deputation stated that they had received an excellent hearing and that the Government had promised that immediate attention would be given to the matter.

No Communistic  
Trouble in Alberta

Winnipeg, Aug. 8.—A report given circulation recently that the district in the neighborhood of Valhalla, Alberta, was dominated by a group of Communists who were seeking to excel settlers of Anglo-Saxon birth is denied by residents of that locality in a letter to a local paper. "The majority of the residents of this district," it is stated in the letter, "are Norwegians, and while there are some six different nationalities in the district, there has been absolutely no trouble at any time among the people of this district."

Home Oil Treatment  
for Dull, Faded Hair

When arranging for your shampoo be sure no soap or preparation containing free alkali is used, as it irritates and dries the scalp, causing much discomfort. A teaspoonful of plain barrel contains enough mineral oil to loosen all dandruff and dirt from the scalp. Stirred into a cup of hot water, it makes a sweet-smelling, foamy wash. Hair is dry quickly and be delightfully fluffy and glossy. It will look much heavier. If your hair has grown faded or dry-looking you will notice the difference in color after the first good wash, and your scalp will be perfectly clean and free from dandruff and the annoying itch. While barrel is impregnated with oil, the granule form in which druggists now sell it, does away with spilling or breaking of bottles. A few ounces of barrel will last about six months.

## Modern Shoe Co.

1300 Government Street

Phone 1556

It is no secret how we are able to sell such smart, well made Boots and Oxfords for \$4.95. We buy this one particular grade of shoe in huge quantities for our three stores in Victoria, Vancouver and Courtenay, then we sell them at a very low margin of profit for quick turnover. You are missing something good if you haven't bought a pair of these extra value shoes.

### Studio of Interior Decoration

This bureau is still very new but it has done a lot of business since its inception and has created a great amount of interest in making homes attractive.

The function of the bureau is to give expert advice in home furnishing. When a woman comes to the department for advice in home furnishing she is not "shopping" in the usual sense of the word. She wants to beautify her home, and she wants to do it well; but, on the other hand, she wants to spend as little as possible to do this.

This department will give you help in choosing the right merchandise, and aims to make it easy for the woman to express her personality when decorating her home.

During the month of August particularly, we invite you to this department to talk over your decorating problems with our experts, without the least obligation on your part to make any purchase whatever.

## BABY SHOW BE VERY POPULAR FEATURE AT FAIR

Numerous Entries Are Being Received by Exhibition Committee

Success beyond all expectations of the officials of the B.C. Agricultural Association is assured for the Baby Show which is among a number of striking innovations to be introduced at the Fall Fair which opens Aug. 18 at the Willow Grove. Over 100 proud parents in Victoria have challenged the rest of the city to produce a more perfect baby in this particular class than their own. Entries are still coming in and Mrs. Frank Campbell who is receiving them is still looking for more. Entries close August 14, and participants of the contest can be secured from either Mrs. Campbell, 123 Castle Street, or Mrs. Ellis, of White Street, Department of David Spencers, Limited. Victoria's young children are already well represented, but since Mrs. Campbell announced her phone number 21081, she has had the busiest time she ever had in her life. Entries are being received so well that the exhibition and reservations for space in every one of the buildings point to the Fall Fair taking the place it should hold in community life. Women's organizations of the city and up-land points, promise to stage most attractive displays in this Women's building. Special attention is also being paid this year to B.C. Manufacturers in the Home Product Building and manufacturers throughout the Province have come forward to crowd the building with exhibits that will bring a realization of the industries operating in British Columbia. Many of them are going to considerable expense to present their exhibits in an interesting manner. Secretary H. Meares this morning expressed himself as highly gratified with the excellent support given the exhibition this year, and extends thanks to those who are co-operating so well with him to make this year's show the best ever held.

## HOME WEDDING PRETTY EVENT

Miss Faith Ledingham Weds Mr. Richard A. Lipsey

A wedding of interest to many Victorians took place last night at the home of the bride's parents, 3134 Quadra Street, when at 9 o'clock the Rev. W. J. Sipprell united in marriage Faith Thirrell, youngest daughter of Mr. and Mrs. G. Ledingham of Victoria and Mr. Richard Andrew Lipsey, eldest son of Mr. and Mrs. George Lipsey of Vancouver.

For the happy occasion the home was transformed into a bower of flowers, and the bride couple stood during the ceremony under an arch of mauve and white sweet peas, from which was suspended a floral wedding bell.

Given in marriage by her father, the bride made a charming picture as she entered the drawing-room in her wedding gown of cream georgette simply fashioned and trimmed with a lace flounce embroidered in silver. The handsome silk net veil was attached to the coiffure with a wreath of orange blossoms and a shower bouquet of Ophelia roses and swansonia completed the bridal attire.

Miss Doreen Fawcett made a fascinating bridesmaid in a frock of orchid georgette with silver trimming and hat to match and carried a shower bouquet of Columbia roses and mauve sweet peas.

The Misses Margaret and Eileen O'Neill, as flower girls, were daintily dressed in frocks of georgette, the former in pink and the latter in Nile green, and scattered floral petals from their baskets as the bridal party entered the room.

The groom was supported by his brother, Mr. George Lipsey of Vancouver.

During the signing of the register Mrs. Robert McIntosh sang "Love's Coronation," and later in the evening Mr. Angus McKinnon rendered "Until" and Miss Muriel Lipsey of Vancouver delighted the guests with her recitations. Mrs. Charles Conyers acted as accompanist, while Miss Gladys Ledingham, the bride's sister, played the wedding marches.

In the dining-room a buffet supper was served, the table being centered with a handsome wedding cake surrounded by flowers daintily arranged. The following friends of the bride assisted in serving the guests: the Misses Ledingham, Miss Beatrice Middleton, Miss Ledingham, Miss Lois Peacey, Miss Mabel Scottie, Miss Margaret Bolt and Miss Muriel Lipsey of Vancouver.

In the breakfast-room were displayed the many handsome and useful wedding presents, among which was a leather club bag, the gift of the office staff of Stude Brothers, of which the groom is a member.

The bride's mother looked very smart in a gown of royal blue satin printed with white milk. A young cow is called a calf and gives us jelly.

Mr. and Mrs. Lipsey left on the night boat for Vancouver, en route by motor to Portland, where the honeymoon will be spent.

Among the out of town guests present were Mr. and Mrs. G. R. Lipsey of Vancouver, Mr. George Lipsey and Miss Muriel Lipsey of Vancouver, Mr. and Mrs. Knudson of Seattle, Miss Gladys Ledingham of Chemainus and Miss Lillian Cherry of Vancouver.

On their return Mr. and Mrs. Lipsey will reside at Hampton Court.

The Sunday School of St. Paul's Lutheran Church will hold the annual picnic at the George City Park, Saturday, August 17. The feature of the day will consist of a programme of sports, a baseball game, other sports, and a big picnic supper on the green. Take George car to terminus and follow the "picnic arrow."

## SOCIAL AND PERSONAL

Senator Plinta of Nanaimo was in the city yesterday.

Mr. and Mrs. C. A. Riggs of Beilington were in the city yesterday.

Mrs. and Miss Fanning of Cowichan Bay are staying at the Empress Hotel.

Mr. and Mrs. S. L. Meyer of Winnipeg are guests at the Empress Hotel.

Mr. and Mrs. J. H. Dickinson of Calgary are registered at the Dominion Hotel.

Mr. and Mrs. J. E. McMullen and family of Vancouver are guests at the Empress Hotel.

The Rev. W. H. Vance, who has been visiting in Victoria for the past few days, has returned home.

Messrs. D. McDonald, W. Waine and R. Genoe of Vancouver, are spending a few days in Victoria.

Miss Wilkinson and Miss White of Victoria are visiting Mrs. McKean of 1022 Victoria Road, Nanaimo.

Dr. Rose is spending a month in Chemainus, relieving Dr. Rogers, who with Mrs. Rogers is on a holiday.

Mr. and Mrs. J. P. Whyte and Mr. and Mrs. R. F. Harrison of Vancouver are guests at the Empress Hotel.

Mr. and Mrs. A. H. Oakley of San Francisco, are visitors in Victoria and are guests at the Empress Hotel.

Miss Evelyn Simpson, who has been visiting her grandmother, Mrs. North, here, has returned to Kamloops.

Dr. and Mrs. Lewis Hall returned on Thursday from a visit to the Canadian Dental Convention.

Mr. and Mrs. W. N. Northrop, who have been spending several weeks in Victoria as guests at Ethelwood, Cook Street, have left for their home in Boise, Idaho.

Mrs. Moir, Oak Bay, has as her guest Mrs. George Laird of Regina, who was among the out-of-town guests at the Oldershaw-Ker wedding last evening.

Miss Jessie Chetham is spending a short time at the Chemainus Hospital relieving the matron, Miss Byrd and Miss Ledingham, both of whom are visitors in Victoria.

Mr. and Mrs. Francis Crossland have returned to their home in Vancouver after spending a very pleasant vacation with Mr. and Mrs. A. Stanford at Cadboro Bay.

Mr. and Mrs. Gregory York of Vancouver, who were visitors in Victoria for the Oldershaw-Ker wedding, are the guests of Mr. and Mrs. A. B. Oldershaw, Harrison Street.

Miss Tora Feuegel, who has been staying with Mrs. M. Griffiths, Burton Avenue, and who has been attending Summer school here, is leaving on to-night's boat for her home at Aldergrove, B.C., where she will spend the next two weeks. Later Miss Feuegel will return to Heffley Creek, B.C., to take up duties as school teacher.

## WOMEN DISCUSS PORT DEVELOPMENT

Wider Markets For Products Subject Before Lake Hill Women's Institute

Lake Hill Women's Institute held the regular monthly meeting on Tuesday, August 5, at the home of Mrs. M. E. Service, North Quadra Street. During the business routine the members of the institute discussed the present method of calculating the mechanical efficiency in the performance of muscular work. He questioned the validity of some of the calculations from the scientific standpoint, and concluded that while, of some academic interest, the method was of no practical value since the modern demand for a determination of the optimum conditions under which a man, as a human being, is capable of doing a good day's work.

Toronto, Aug. 5.—That the religions of the ancient tribes who roamed America centuries ago differed but little from practices still prevalent, was pointed out by Ruth Bellstedt in addressing the anthropology section of the British Association here today.

The will of the Manitou was made known to the tribe by visions, forerunners of the modern spiritualistic seances," she said. "Through this means he communicated to his followers taboos, immunities, privileges, and even songs. Most of the life of the tribe was regulated in this way, including their ceremonies of initiation, the choice of their rulers, clan organization, hunting and warfare."

Conclusions drawn by the relation of religious practices to other countries were drawn by the speaker.

A card party and social evening will be held at the Temperance Hall, Keating, on Saturday evening.

## Unable to Rate Human Beings in Terms of Calories

Toronto, Aug. 5.—Determination of the efficiency of a man as a human being and not as a machine is what is wanted to-date, according to Prof. E. P. Cathart of Glasgow University.

In a paper read to the physiological section of the British Association here today, Prof. Cathart discussed the present method of calculating the mechanical efficiency in the performance of muscular work. He questioned the validity of some of the calculations from the scientific standpoint, and concluded that while, of some academic interest, the method was of no practical value since the modern demand for a determination of the optimum conditions under which a man, as a human being, is capable of doing a good day's work.

## Religions of Tribes Speaker's Subject

Toronto, Aug. 5.—That the religions of the ancient tribes who roamed America centuries ago differed but little from practices still prevalent, was pointed out by Ruth Bellstedt in addressing the anthropology section of the British Association here today.

The will of the Manitou was made known to the tribe by visions, forerunners of the modern spiritualistic seances," she said. "Through this means he communicated to his followers taboos, immunities, privileges, and even songs. Most of the life of the tribe was regulated in this way, including their ceremonies of initiation, the choice of their rulers, clan organization, hunting and warfare."

Conclusions drawn by the relation of religious practices to other countries were drawn by the speaker.

A card party and social evening will be held at the Temperance Hall, Keating, on Saturday evening.

## MISS E. OLDERSHAW WED LAST NIGHT

Native Daughter Becomes Bride of Mr. A. H. Ker at Pretty Home Ceremony

A very pretty house wedding took place last evening at the home of the bride's parents, 1422 Harrison Street, when Edna Sarah, second daughter of Mr. and Mrs. A. B. Oldershaw, became the bride of Mr. Arthur Hugh Ker, son of the late Mr. H. Ker and Mrs. Ker of Vancouver, the ceremony being performed by the Rev. W. P. Freeman.

Entering the drawing-room on the arm of her father, to the strains of the Wedding March played by Mr. Bruce McNaughton. The bride made a beautiful picture in her wedding gown of ivory marocain crepe, fashioned with pink and white embroidered in iridescent beads and caught at the waistline with rosettes of the material.

The conventional lace veil was attached to the coiffure with orange blossoms and the shower bouquet carried was composed of pink roses and maiden-hair fern.

The bride was attended by her sister, Miss Jean, Oldershaw, who looked very pretty in a frock of mauve taffeta, with gold lace yoke, with which was worn a hat of gold lace with black ribbon streamers. A bouquet of pink and mauve sweet peas completed her attire. The groom was supported by Mr. Elliott Tully.

For the happy occasion, quantities of Summer flowers were artistically arranged in the various rooms, while during the ceremony the bride and groom stood under an arch composed of clematis and pink sweet peas.

At the wedding, Miss Kitty Palmer sang very sweetly, "I Love You Truly."

Following the marriage service, the assembled guests offered their felicitations, after which a delicious buffet supper was served. The table centred with white flowers, was presided over by Mrs. Charles Geiger and Mrs. T. Godfrey, while the Misses Mary McKinnon, Florence McMillan, Madge Knott, Lillian Pritchard, Evelyn and Margaret Wilson, Jessie Clayton and Mrs. Robert Ross assisted in serving.

Owing to illness, the groom's mother, Mrs. Ker of Vancouver, was prevented from being present. The bride's mother was handsomely groomed in navy blue satin, with lace overdress. Mr. and Mrs. Ker left on the night boat for Vancouver, en route by motor for Portland, Oregon, where the honeymoon will be spent, and on their return will make their future home on Fort Street.

Testifying to the popularity of the bride, who is a native daughter, well-known socially, and of the groom, who is manager of the Remington

Rich milk, malted grain, in powder form. For infants, invalids and growing children. Pure nutrition, upbuilding the whole body. Invigorates nursing mothers and the aged.

Agrees with the weakest digestion. Keep it on your sideboard at home. A quick lunch prepared in a minute. Nourishing, digestible, no cooking.

Typewriter Company here, were many handsome wedding presents. Among the out-of-town guests present were Mr. and Mrs. Gregory Laird, Regina, Mr. Ronald Ker of Vancouver.

## Mr. Bowser Godfather To Hinchliffe Son

Arthur Tilston Hinchliffe, the three-months-old son of Joshua Hinchliffe, M.P.P. for Victoria, was christened Sunday at St. Agnes Church, North Vancouver.

Mrs. Hunt, of North Vancouver, was godmother, while W. J. Bowser, K.C., and D. B. Plunkett, of Victoria, were godfathers. The christening ceremony was performed by the Rev. E. M. Searies.

Mrs. Hinchliffe and her children are staying with their parents in North Vancouver. The other members of the christening party returned to Victoria after the ceremony.

## Three Children in Canada Drowned

Ottawa, Aug. 8.—Three children lost their lives by drowning in Eastern Canada yesterday.

Four-year-old Charles August Bigres was drowned when he attempted to swim to shore from his

father's punt at Gaitneau Point, near here.

William Baldy, aged eight, fell off the government dock at Peterboro. The eighteen-months-old daughter of William Lee toddled into a water-filled excavation at Cobourg, Ont. Mary Lasker, Hamilton, aged eight, was saved from drowning at Welland by a youthful companion.

## 1 Dozen Hens

No, we haven't any hens to sell but we have good portable chicken houses for sale. Just right for 12 hens. Eggs? Why, of course, lots of them, and may be with red stars on them too. A hen would get red in the face to live in such a house and not lay.

The house will be set in your yard for \$12.00. Who wants it? Don't all speak at once.

## NOTICE

All members of the Royal Black Institution are requested to meet at the Orange Hall at 6.30 p.m. Sunday August 10, for the purpose of attending the annual church parade. Sermon will be preached by the Rev. Sir Knight W. H. Ledman at the Douglas Street Baptist Church. Being the anniversary of the Orange Young Britons, they are particularly requested to attend. All Orangemen, Orange Ladies and Loyal True Blues are cordially invited. Sojourning Sir Knights in good standing are welcome.

The Juvenile Pipers Band will lead the parade.

By order of the W. Preceptor W.M. BATTERSWILL, Registrar.

## RADIO STATION TO GIVE CONCERT

Fletcher Bros. Broadcasting Station to Give First Programme To-night

Commencing to-night radio fans will be able to tune in on Station CFCT, when Fletcher Bros. new broadcasting station will deliver its first programme. The concert will start at 8 o'clock.

Two programmes will be given every week on Wednesday and Friday nights by the apparatus of the popular music store. Programmes are being arranged by Frederic King, and among the artists who will contribute to this evening's programme are: Miss Helen Starr, mezzo-soprano; Mrs. S. M. Morton, contralto; Thomas Kelway, tenor; Percy Edmonds, baritone. The newly-organized trio composed of Drury Pryor, violinist; Harold Taylor, cellist; and Chris. Wade, pianist, will render both solo and ensemble numbers.

## Governor of Bermuda Comes to the Island To Lure Salmon

On his way to Campbell River, Lieut.-Colonel Sir John Joseph Asser, Governor of Bermuda, arrived on the island to-day, having specially crossed the continent to fish the famous stream. He is expected in Victoria about the middle of next week. He is accompanied by Lady Asser, who also is an ardent sports-woman.

The Governor has a military career that dates back to the time he was aide to the general officer commanding in Egypt in 1892. He won distinction in the Nile expeditions of 1897-8-9 and was adjutant-general of the Egyptian Army from 1897 to 1914.

Sir John received the highest commendation for his work in the World War, during which he was base commandant and G.O.C. in the line communication area. In addition to the British honors he wears French and Belgian decorations.

## NEW COMPANIES

Companies incorporated in British Columbia during the past week are as follows:

Haves-Berman Motor Company, Limited, private, \$10,000, Vancouver.

## CANADIAN LEGION PICNIC

All arrangements are complete for the Canadian Legion picnic to Rodd Hill on Saturday and there is every promise of a fine day and a fine crowd. A special feature will be the sports.

All classes will be catered for and the prizes will all be worth winning. All intending to go are requested to be on time as the trolley will leave the club at 1 o'clock. A later car will leave at 1.45 for those who are unable to go earlier. Arrangements have also been made for those who care to travel by water for a boat to leave Davis's landing (Legion) at 1.30 for the picnic grounds.

## Beauty Of Hair and Skin Preserved By Cuticura

Soap to Cleanse Ointment to Heal

## NEWS IN BRIEF

There will not be a meeting of the City-School Board before Wednesday week, it is expected, as the regular meeting due on August 14 will be postponed.

Building permits have been issued to A. R. Shirk for a garage at Finlayson Street, to the B.C. Lands and Investment Agency for alterations to the offices, and to Mr. Revercomb for alterations at 1907 Belmont Avenue.

An application for approval of foreshore rights applied for by the Canadian Puget Sound Timber & Lumber Co. at Rock Bay, near the dismantled bridge, has been lodged with the City Council.

The Children's Aid Home extension is progressing satisfactorily, and it is hoped to have it ready for the return of the children from camp. A dormitory above, and a dining-room below are being provided.

Found by City police officers on Johnson Street at 2 a.m. today Percy Brooks and Wilfred Sayer were arraigned before Magistrate Jay in City police court on charges of loitering. Both were warned to return to their homes, and permitted to go.

A Ford car stolen from Mr. Hetherington, Cadboro Bay road, when the owner was attending a dance at the Victoria High School last night, was recovered at 2 a.m. today from a place on Grant Street where it had been left by the owner. The gas in the tank was low, but the car otherwise undamaged.

City Engineer Preston proposed to take the opinion of the Council with regard to the crossing by the B.C. Electric Railway with its transmission line from Jordan River to Brentwood of the Sooke pipe line. Protection has to be given to the telephone line from the headworks to Humpback.

Twenty-five sun fish for use in a miniature lake to be displayed by the Provincial Department of Lands, Forestry Branch, at the Fall Fair were taken from Lost Lake, Saanich, by Mr. J. H. L. Lefebvre, Esq., of V.N. Lefebvre, Ltd., Government Street. In form they are somewhat like a perch, only of a brilliant color with a peculiar crimson spot behind both eyes.

The increased installation of expansion bands on the Sooke water-works flow line from the lake to Humpback reservoir, to prevent leakage, has cut the loss to under twenty per cent. last month. When work was started two years ago the leakage was forty-five per cent. of the water which left the headworks. There were 272 installed when the work ended last winter, and the number will be increased to 515 by the end of the year-it is expected.

Three motorists and two owners of livestock were dealt with in the Esquimalt police court yesterday afternoon before Magistrate Jay. E. A. Martin was fined \$30 for driving to the common danger, M. Clark and H. Gage were each fined \$20 for speeding. J. Lock was charged with permitting cattle to graze on private property without authority, and remanded one week for hearing. Mrs. Bridle, charged with permitting cattle to graze on the highway was cautioned.

Arrangements completed by Stuart Henderson, counsel for the defence of those for whose arrested lands the William Stevenson Memorial Committee has been negotiating, and will add considerably to the value of the property.

The city is under contract to carry out the grading and terracing for the William Stevenson Memorial Committee, who next year will take it over to adapt for playground purposes.

The property at present is one of the most untidy in the city, and Spring Ridge residents are awaiting anxiously the commencement of work on the property.

Under the leadership of Rodney C. Wood, Dominion Camp Chief of the Boy Scouts Association in Canada, the Gillwell training course for scoutmasters opens on Saturday night, and will continue until the morning of August 20. The campsite is located in the vicinity of Colwood. Many local scouts will attend this ten-day course, including: R. Ross Sutherland, Acting Provincial Commissioner; Scouts J. Atkin, N. Atkins, R. W. Hartley, P. Wilkinson, D. M. Adams, and J. L. R. Aldis of Victoria; Scouts N. H. Saunders, A. R. Wootton, H. D. King, and T. W. Edwards of Vancouver; Scouts F. H. Hughes and L. E. Smith of Nanaimo; N. L. Ball of Nelson; H. K. Beattie of Port Moody; G. Ricketts of Powell River; H. McDonald, M. Macpherson, and E. Wells of Revelstoke. Mr. R. E. Crompton, at one time a resident of Victoria and now Scout executive of the Vancouver and New South Wales Scout Council, will also attend. Scout Colin Langdon of Vancouver will act as quartermaster of the camp and will be assisted by Patrol Leaders A. Beattie, H. Fletcher and W. A. Shilcock.

A number of Scouts who were present at the B. C. Gillwell Camps during 1923 and 1924 will "sit-in" at this course during the day as they are able. Antagonist of these are G. H. Bourrett, C. S. Frampton, A. MacArthur, J. D. Southworth, all of Victoria; L. V. Masters of the 1st B. C. Sea Scouts, Vancouver; Ernest Galt of Vancouver and J. W. Heywood of Burnaby.

## Public Will See Model Post Office in Operation

Attractive Display Arranged By Victoria Postal Authorities For Fall Fair

Victorians who visited the model postal office erected by the Victoria General Post Office at the Willows fair grounds last year will be glad to hear that an even more elaborate showing is now in course of preparation for the forthcoming Fall fair. The first stages of erecting the exhibit were commenced to-day, and by Monday the whole set will be in place.

To the Times this morning H. F. Bishop, postmaster, explained that the exhibit would in effect be a working branch of a regular postal department. The public will see how letters are received, stamped, sorted and passed out on the various routes around the world. An attractive array of the exhibit will be the collection of stamps which are to be shown in a novel manner.

Himself one of the pioneers of early days on this Coast, Postmaster Bishop has not forgotten the pioneer postal services, and a very attractive display will be made of the manner in which letters used to be handled from this city to mining camps in the days of the gold rush. Altogether the exhibit will surpass even the excellent display which drew such congratulatory encomiums last year. If other exhibitors would follow the example of the postal authorities and arrange their exhibits early it would mean much to the management of the fair, believes Mr. Bishop, putting this doctrine into early practice.

## Canadian National Offers to Aid the Women's Exhibit

The Women's Institute Exhibit for the Canadian National Exhibition in Toronto has been given decided impetus by a wire received by Mrs. V. C. MacLachlan, secretary of the B.C. Women's Institute here, from Sir Henry Thornton, president of the Canadian National Railways.

The telegram received by Mrs. MacLachlan, secretary of the B.C. Women's Institute here, from Sir Henry Thornton, president of the Canadian National Railways.

## Will Make Start on Monday Chasm

Effort to Undo Work of Past Years at Spring Ridge

Land Suitable For Bowling Green Acquired

Work will start on the Spring Ridge Sand Pits in a few days. City Engineer Preston stated to-day, as soon as one of the games now engaged on other work is finished, the engineer will start the grading, which he estimates will occupy two months. If the Public Works Committee of the Council were held, it had been his intention to ask authority to add a bowling green on a piece of land adjacent which has just been acquired by the city. The committee set for this afternoon was postponed, the matter will not be taken up until Monday.

This additional piece of land is one of those for whose arrested lands the William Stevenson Memorial Committee has been negotiating, and will add considerably to the value of the property.

The city is under contract to carry out the grading and terracing for the William Stevenson Memorial Committee, who next year will take it over to adapt for playground purposes.

The property at present is one of the most untidy in the city, and Spring Ridge residents are awaiting anxiously the commencement of work on the property.

## White Bear Cub Officially Taken

Order of Confiscation Made To-day; Curator Kermode Given Custody of Cub

Francis Kermode, curator of the Provincial Museum, became the custodian to-day of the only living specimen of the ursus kermodei in captivity, when Magistrate Jay in Provincial police court made a formal order of confiscation and placed the custody of the bear cub with the curator.

The bear was taken by two Indians on Prince of Wales Island on May 29. It was bought by O. W. Flowers, Ocean Falls, from the Indians for the sum of \$60. Later Mr. Flowers attempted to sell the animal to the Stanley Park authorities for \$100. After some delay the Provincial authorities traced the whereabouts of the animal and it was seized.

To-day, under provisions of the Game Act the bear is seized by order of the court and Mr. Kermode made official custodian. Since the first specimens of the white bear were seen and shot on Gribble Island twenty years ago no trace of the species, apart from the stories of Indians who saw them in the woods, came to hand until the capture of the live bear cub.

In this case two cubs and their mother were sighted by the Indians who climbed a tree and captured the cub. The mother animal returned when the cub squealed but the Indians made good their escape. Technically they committed a breach of the law, but as their transgression put the authorities in possession of the only specimen of its kind in captivity their act resulted in a distinct zoological triumph for the Province.

## MISS LEEMING LOSES IN NORTHWEST TENNIS

Tacoma, Aug. 8.—Miss Marjorie Leeming of Victoria lost her game here this morning in the women's singles of the Northwest tennis tournament to Miss Rose Thorne of California, 6-2, 6-0.

See the big American Fleet at Port Angeles, August 10. Special low round trip fare only \$1.00. Steamer "Olympic" sailing at 9 a.m. and 3.30 p.m. Tickets at Puget Sound Navigation Co., 312 Government Street, and C.P.R. Wharf Ticket Office.

## WESTERN PROVINCES CRICKET SERIES

British Columbia Scores 110 For Six Against Saskatchewan Eleven

Winnipeg, Aug. 8.—Manitoba met the unbeaten Alberta team this morning in the tournament for the cricket championship of the Western provinces, and before the lunch bell had gone they had captured the ten wickets for a total of 71 runs. Gillespie did excellent work with the ball, taking five wickets for 18, while Schaumloffel had three for 17. Johnson, whose last innings made him conspicuous throughout the tournament, was top scorer for Alberta with a total of 23, a smart catch by Davis behind the wicket dismissing him. Barker played well at the tail end and collected 14 runs before he fell to a catch by Meston.

British Columbia in their game with Saskatchewan took first lease of the wicket, and when the lunch hour arrived were still batting, having lost only one wicket. The first innings of the victors was a fine one, getting 23 runs before he went out leg before wicket, off the bowling of Foster.

## AT THE THEATRES

Confession Comes  
One Minute After  
"Execution" Over

How many men are convicted on circumstantial evidence and put to death when they are really innocent? Many learned lawyers scoff at the idea that such a thing happens, while others contend it is not such a rarity. Only a few years ago newspapers reported two cases within one week where dying men confessed to crimes for which others paid the penalty. In both cases confessions came too late to save the innocent. Both had been convicted on circumstantial evidence, evidence that seemed absolutely conclusive.

Just such a case proves the basis of the sensational Universal screen success, "Legally Dead," which is now playing at the Playhouse Theatre. Milton Sills plays the leading role, that of a man wrongfully convicted of a murder. The confession of the error is made one minute after he is put to death. Too late! Well, not in this case, for a physician using the newly discovered life restoring drug, adrenalin, steps in and after hours of frantic work resurrects the seemingly dead.

It is not a fragment of some wildly imaginative author, but the work of a former assistant state's attorney of Chicago who has made a study of adrenalin. The drug has proven its potent powers in dozens of recent

Movie Actor Meets  
Father After Long  
Absence In Ireland

Rex Ingram, producer of "The Arab," the Metro picture which is playing at the Dominion Theatre this week, saw his father for the first time in fourteen years when he went to London en route to northern Africa where "The Arab" was filmed. Mr. Ingram's father is the Rev. Thomas Hitchcock, an Episcopalian clergyman who is instructor at Trinity College, Dublin.

The last time he saw his father, Rex Ingram was a Trinity undergraduate afflicted with the wanderlust that sent him adventuring in the United States. He returned to Europe, rich, famous and with his beautiful American bride, Alice Terry, who cases, all of which are a matter of record.

"Legally Dead" is a picture that

Director Wanted  
Typhoon and Found  
One In South Seas

A terrific storm at sea, culminating in a shipwreck, is one of the scenes in "The Marriage Cheat," a First National picture produced by Thomas H. Ince, now enjoying an engagement at the Capitol Theatre. The action takes place in the fabled South Seas, where the picture was filmed.

Probably never before has such a realistic storm been screened. Director John Griffith Wray, who took his company to that far-off section of the globe, waited many days before a typhoon took place, but the ferocity of it resulted in such remarkable "shots" that his patience was rewarded.

"The Marriage Cheat" is based on the story by Frank R. Adams, and is enacted by a cast which boasts such capable players as Percy Marmont, Leatrice Joy, Adolphe Menjou, Lauka Winter, Henry Barrows and J. P. Lackey.

The story is an unusual one in many respects. The chief figure is Octavia Canfield, who has been mistreated for many years by her pleasure-seeking husband, a millionaire. Finally, driven to desperation, she leaps from his yacht while in South Sea waters and is found on the beach of an island by a young missionary. In the meantime Octavia has fallen in love with the missionary, and is content to spend the rest of her life on the island. But she puts duty before love and consents to return to civilization with her husband. Then fate, in the form of the storm, intervenes and brings happiness out of turmoil, with the husband making the great sacrifice to redeem himself.

Fleeing Canary Was  
Caught and Held By  
Searchlight Beam

Here is a novel method to capture your canary bird should it escape from the cage. It is a movie method but can also be used in any home without any special equipment. During the filming of "The Governor's Lady" at the William Fox studio work on the canary bird was interrupted when the canary bird on the set escaped from its cage.

While Harry Millard, who was directing the picture, called to the cameramen to cease grinding, the bird flew up to the rafters. After some thought from all working on the set, the director decided to try an experiment. A powerful searchlight was turned upon the bird, hypnotizing it. Then a prop man climbed up the rafters and rescued the bird. The same results could be obtained at short range with a powerful flashlight.

This picture was adapted from the Belasco stage hit, written by Alice Bradley, Robert T. Haines and Jane Grey. The title role is played by Bebe Daniels and Leslie Austen are also in the cast. "The Governor's Lady" is now at the Pantages Theatre.

Twelve Minute Round  
In Screen Fight Was  
Enough For Battlers

Tom Satchel, most prominent of thoroughly disliked "Millies," plays the role of the heavy in George Archainbaud's new Fox production, "The Plunderer," which is showing at the Columbia Theatre.

In one of the most thrilling scenes of the picture, Satchel and Frank Mayo for twelve minutes without pause. The fight is said to have exhausted both men.

Kit Carson, Scout,  
Appears in Royal  
Victoria Picture

Famous Character Brings News  
of Gold Find in "The Covered Wagon"

Kit Carson in person! The modern semblance of the famous scout in the person of Guy Oliver, actor, who portrays that role in James Cruze's Paramount production, "The Covered Wagon," which will be on view at the Royal Victoria Theatre week of August 11, with two performances each day at 2.30 and 8.30. Mr. Oliver does not appear in the earlier portions of the story, but he had plenty to do, since he is the man who conveys the news of the gold discovery in California to Leavenworth and drops a hint and a nugget en route to some of the members of the great wagon train, which results in a split in the caravan, part of the homeseekers becoming goldseekers and branching off to California.

The story is one of remarkable interest and power. J. Warren Kerrigan and Lois Wilson have the leading roles. In the cast are Alan Hale, Charles Ogle, Ethel Wales, Ernest Torrence and Tully Marshall.

EXPECT PEPALL TO  
RETURN TO TORONTO

U.S. Immigration Men Recommend That Washington Officials Deport Him

Accused in Toronto of Share in Provincial Bond Deals

Toronto, Aug. 8.—"Another chapter of the Ontario Treasury scandal is being closed at San Francisco," according to The Toronto Evening Telegram, which publishes a special dispatch from that city, stating that Andrew J. Pepall, who was mentioned in connection with the Aemilius Jarvis provincial bond transactions and who has been fighting extradition strenuously for months, has been recommended for deportation as "an alien who entered the country without submitting to inspection and who was convicted or admits the commission of a felony or other crimes and misdemeanors involving moral turpitude."

## QUICK ACTION

The dispatch continues: "Walter Carr, superintendent of the United States immigration department in charge of this district, said the papers in the case, including the findings of the deputy assigned to hear the proceedings, had been sent to Washington for action within a few days. He said that on the showing made he could see nothing but deportation for Pepall. His family must go with him."

## BOUGHT RESIDENCE

"Pepall a few days ago purchased a \$25,000 residence in Hollywood and occupied rather an influential position in club and business circles. He is president of the Long Beach Glass Company and of the R. L. Donley Manufacturing Company and a director of the Globe Petroleum Company, secretary-treasurer of the See Candy Company and a director of the Southwest Petroleum Company. What is more to the point in consideration of the machinery by which he must be deported by the Immigration Department, he is strong with certain political factions having powerful political pulls at Washington."

CHARGE AGAINST MEN  
IS WIRE TAPPING

Five in Windsor, Ontario, Are Accused; Man in Montreal Identified

Windsor, Ont., Aug. 8.—Five men are being held here in connection with a wire-tapping scheme. They are suspected of being concerned in recent racehorse swindling operations by which a Cleveland man lost \$50,000.

Has Never Lived  
Throughout Film  
During His Life

"Each Man in His Time Plays Many Parts," Not So Joe King

Every time Joe King is assigned to a role in a motion picture he immediately prepares himself for a death scene. Poor Joe has been killed more times for the edification of the movie fans than Lenine for the news-people. But, unlike Lenine, Joe fully expects to keep right on with his "dying" for some time to come.

Recently Joe was called to the Paramount studio in Long Island. Director Alan Crosland phoned him that he had a good, sympathetic part for him in Crosland's production for Paramount, "Unguarded Women," which features Bebe Daniels, Richard Dix and Mary Astor. King thought that he was at last going to be given a chance to live through a picture. Hopefully reporting to Mr. Crosland, Joe was told that he was to play the role of Capt. Robert Banning, an American army officer. Needless to say, Joe dies a noble death on the battlefields of France.

"Unguarded Women," an adaptation of the Saturday Evening Post story, "Face," will open next week at the Capitol Theatre on Monday.

OF INTEREST TO AUTO  
TOURISTS

In arranging your Summer trip, you will be pleased to learn that effective July 2, there will be two sailings of the Motor Princess between Bellingham and Sidney, leaving Sidney for Bellingham at 10.45 a.m. and 2.10 p.m., from Bellingham to Sidney at 7 a.m. and 2.30 p.m., daily, including Sunday.

If you have not made the circuit, which you can do by also including the trip between Vancouver and Nanaimo, with sailings from Vancouver at 5 a.m. and 1 p.m. (for all-sized cars), 10 a.m. and 5.30 p.m. (for smaller cars), daily except Sunday; Sundays at 5 a.m. and 1 p.m. (for all-sized cars). From Nanaimo to Vancouver at 7 a.m. daily except Sunday and Monday (for small cars), 2.15 p.m. daily except Sunday (for small cars), 5 a.m. and 5 p.m. (for all-sized cars) daily, including Sunday.

SAANICH SCHOOL  
VACANCIES FILLED

Trustees Select Eight Teachers From Long List of Applicants

The Saanich school board, last night, at Tolmie school, selected eight teachers for vacancies on the various school staffs, six being women and two men.

Of the ninety applications received by the board, forty teachers were present at the meeting on the invitation of the board, nearly all the women candidates being Saanich residents.

The following appointments were made to the staff, the schools not being designated at this time: Misses D. E. Ayton, S. Fisher, E. K. Ryan, M. M. Cotton, A. N. Service, E. G. Kelsey, Messrs. G. S. Taylor and J. H. Harman.

Many Chemicals  
From Salt by Use  
of Electric Power

Toronto, Aug. 8.—Vast deposits of salt at Windsor, Ontario, are sufficiently close to Niagara Falls to permit the cheap manufacture of many chlorine and soda products by the use of electric power, according to D. A. Pritchard, of the Canadian Salt Company, Windsor, who described the processes which this concern introduced into Canada to the chemical section of the British Association here to-day. Electrolytic cells of the type invented by Arthur Gibbs, an Englishman, are used, in which common salt is transformed into alkali and chlorine gas by the passage of an electric current. The process is now used extensively in England, the United States and Canada, but the conditions in the Sandwich area are particularly favorable for its operation.

Much of the alkali turned out is absorbed by the soap and paper industries, and among the uses of the chlorine are purification of water and the manufacture of bleaching agents.

See Championship Boxing, Pantages Theatre, Tuesday.

It is not necessary to parboil Swift's Premium Ham.

Boil the shank, fry the centre, bake the butt.

For Any Meal—Any Day!

## Swift's Premium Ham

Sizzling, appetizing Premium Ham and Brookfield Fresh Eggs is a breakfast dish that you can enjoy seven days a week—every week in the year. Swift's Premium Ham bought in the piece lends itself for the preparation of a great variety of dishes. It is ideal for the "quick meal" or when served cold keeps Summer cooking down to a minimum.

## The COVERED WAGON

A Paramount Picture

Windsor, Ont., Aug. 8.—Five men are being held here in connection with a wire-tapping scheme. They are suspected of being concerned in recent racehorse swindling operations by which a Cleveland man lost \$50,000.

For a snappy breakfast that keeps the mind clear and keen for office work.

1st With milk or cream, it's a perfect food, and doesn't clog the system with excessive waste.

2nd A marvel of flavor, too. Kellogg's has a snappy taste that's unique. Crisp and tempting.

3rd A s a mighty convenient for the busy housewife because it's all cooked and ready to serve.

## Kellogg's

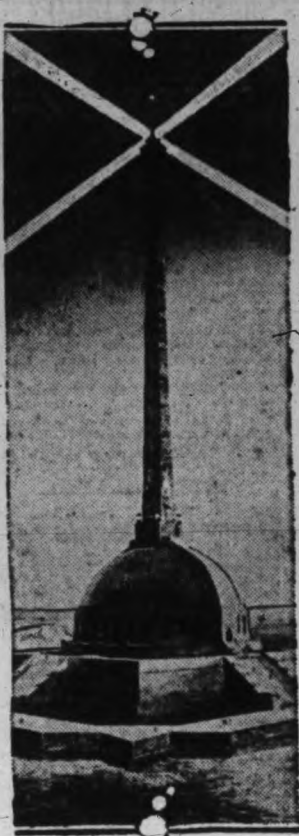

### CORN FLAKES

Over-fresh always

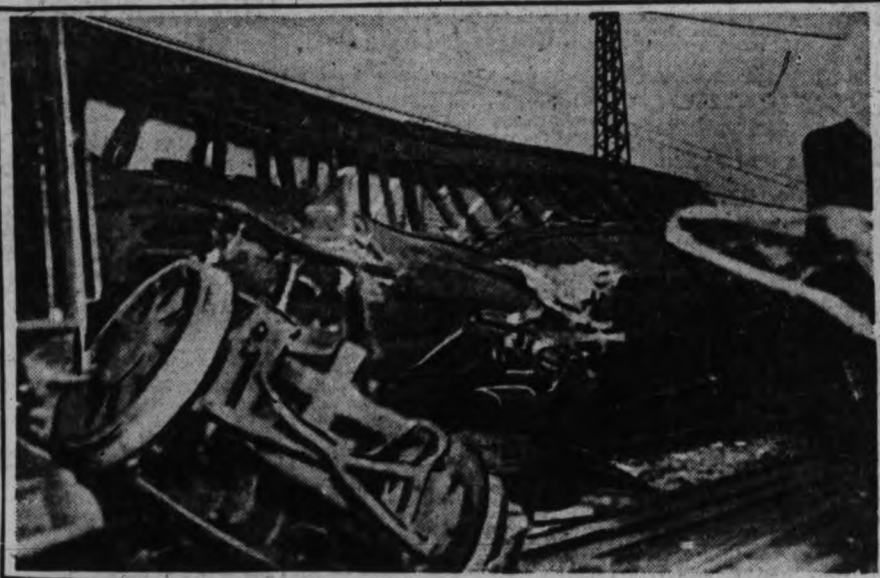

**LOU HOLLAND FLIES HIGH.**—When the convention of the Advertising Clubs of the World adjourned in London, Lou Holland, the president, took to the air with his wife and daughter and flew to Paris.

**TO COLUMBUS.**—Here is a sketch of the proposed Pan-American monument to Christopher Columbus, which may be built on Torrecilla Point in San Domingo Harbor at a cost of \$2,000,000. The monument, as planned, would be topped by a latticed steel lighthouse, 130 feet higher than the Eiffel Tower.

**ONE KILLED AND SIXTY INJURED.**—Above is pictured the wreckage of a Long Island train in which one passenger was killed and sixty injured at Woodside, Long Island. The wreck occurred when signals went wrong and three cars jumped the track, colliding with an engine, according to the report of police. Below is seen one of the seriously injured who were rushed to the Pennsylvania Station in New York City and thence to hospitals.

**MISSIONARY HOLIDAYS.**—Rev. Dr. W. J. Mortimer, Secretary of the Canadian Methodist missionary society in West China, who has arrived in Toronto on furlough.

**STICKS TO THROTTLE TO END!**—Harry Johnson of Cleveland, engineer on the Wheeling & Lake Erie, was faithful to his trust to the end. Rounding a sharp curve near Canton, O., he saw a trestle just ahead was on fire. It was too late to stop his train. He ordered his firemen to jump, but he remained at the throttle, for the lives of ninety passengers were in his hands. The engine and three cars, mail, baggage and a day coach, plunged off the bridge into a creek below, then caught fire. Twenty passengers were injured, but only one seriously. Johnson's heroism had saved their lives though it cost him his own. The picture shows the debris of the trestle and destroyed cars.

**FOUR HUNDRED AND SEVENTY BAPTIZED AT ONCE!**—As a band played, "Oh, Happy Day!" and their comrades chanted hymns, 470 members of the International Bible Students were baptized in a park bathing pool at Columbus. The ceremony, which was public, took place during the organization's world convention. The women wore heavy black cloaks over their bathing suits.

**DESERTS SOCIETY FOR JOURNALISM.**—Miss Margaret Crosson, two years ago one of the most beautiful and popular debutantes of Washington, D.C., has given up social pursuits to become a newspaper writer. Her work will appear in newspapers all over this continent.

**NEW ARMY CHIEF.**—Major General John L. Hines, Deputy Chief of Staff, will succeed General John J. Pershing as chief of staff of the United States army when Pershing retires September 12. General Hines virtually has been chief for the last six months, owing to Pershing's absence abroad.

**HE, ALSO, WAS MARKED FOR DEATH!**—John Levinson, nine-year-old Chicago boy, who, says the state, also was on the list of Nathan F. Leopold Jr. and Richard Loeb's prospective victims, came back from a vacation in Maine to testify at their trial. Here he is being sworn in before Chief Justice John R. Caverly.

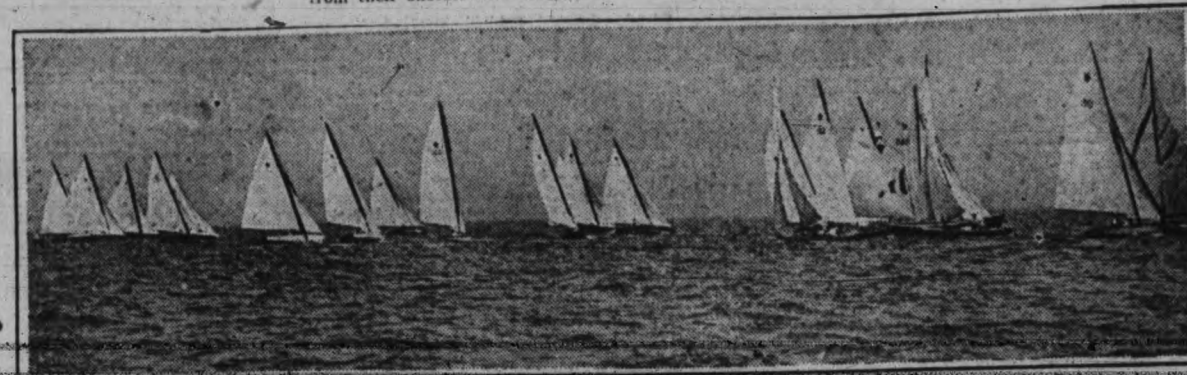

**IN QUEST OF CURING POWDER.**—Dr. William Sturges, nationally known bacteriologist, and his wife are spending the summer gathering "golden dust." It is a "dust" that is proving a blessing to humanity. It is the pollen, or powder, in the flower of the Russian thistle—a powder that has been found to have remarkable hay fever curing faculties. Mixed into a glycerin vaccine, it has been used in treating hundreds of hay fever sufferers. And 84 per cent. of those so treated say they have been cured entirely. Dr. and Mrs. Sturges are hunting the "golden dust" day and night. By the end of September, they think they will have gathered fifteen grams of it. Yet that is the full supply needed by the New York laboratory for which the doctor and his wife are seeking it. With a camelhair brush, the pollen is separated and put into a glass container. Then the powder is run through a sieve so fine it keeps out the stray hairlike stamen which accidentally have fallen into the dust. The Russian thistle—the farmers who have been cursing it for years call it "tumbleweed"—rolls for miles through the prairies in autumn. In summer, its main purpose, to all intents, seems to be to crowd out other plants affording more profitable yield. Sixteen injections of the vaccine are used in a treatment. The first injection may be a dose of only five-millionths of a gram. And the last is no more than 16 ten-thousandths. The treatments for a time—even two years—may bring only temporary relief. But finally, according to Dr. Sturges, they make it unnecessary for hay fever sufferers to seek a change in climate, to obtain relief from their sneezes and coughs.

## SCHOOL DAYS

By DWIG

**CAVEWOMAN.**—She's a real cavewoman. Elizabeth Lee, twenty-two-year-old daughter of Dr. Willis T. Lee, Washington geologist and explorer, is in charge of the National Geographic Expedition to the Carlsbad Cavern, in New Mexico. As secretary to her father, she has become familiar with the many miles of bewildering underground passageways of the famous cavern.

**HEAVE HO, MY LADS! A PLEASANT GALE IS ON OUR LEE.**—If you've been sweltering in office or home all day, just take a second look at this picture and cool off. Eighteen yachts mass for the start of a ten-mile race off Execution Light in Long Island Sound. The race was won by Ace, owned by Adrian Iselin. A hot race, but cooling breeze.

## Provincial Exhibition August 18 to 23

An office will be opened at J. C. Nott's, 574 Yates Street, for the purpose of taking entries for the Provincial Exhibition, from Monday, August 4 to Saturday, August 9. Entries close positively August 9.

### GOAT BREEDERS

The regular monthly meeting of the local members of the B. C. Goat Breeders' Association will be held in the Y.M.C.A. on Monday, August 11, instead of the following Monday owing to the opening of the Fall Fair on that date.

Arrangements for the goat exhibit will be reported, and any further arrangements necessary will be made. Members are reminded that the last day for entries is Saturday. Prospects look good for a better goat show than ever as there will probably be over 100 entries.

## Notice to Breeders of Livestock

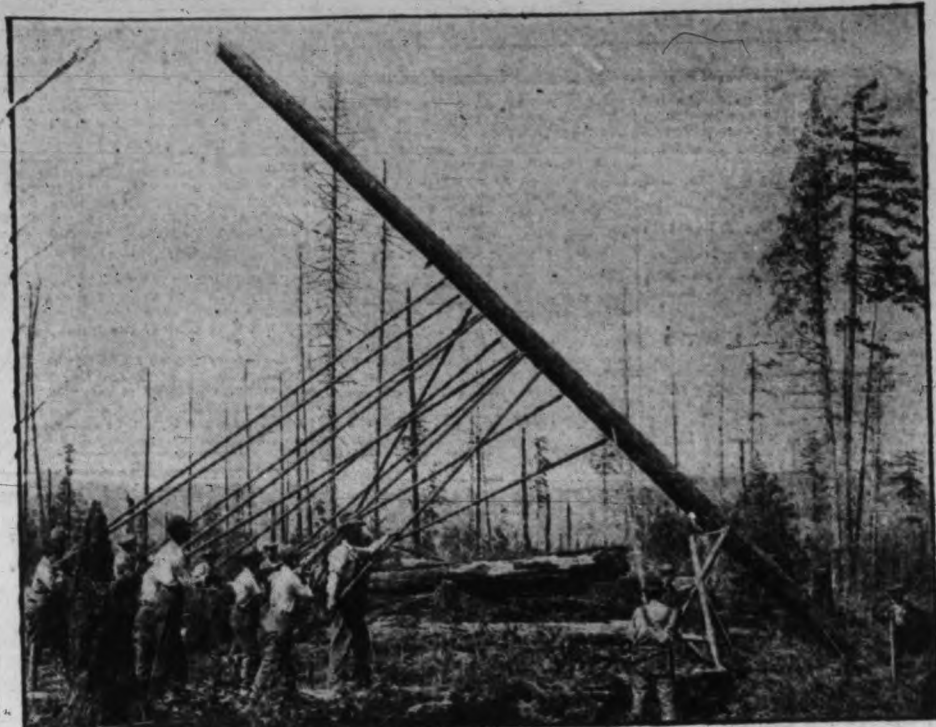

Mr. Erick Bowman, the discoverer of The Bowman Remedy, claims that in treating 70,000 cattle in the United States the results have been successful in 98% of the cases treated. Are your dairy cows and heifers causing you trouble?

Are you obtaining results in calves and milk that satisfy you? Do your cows (according to your knowledge of their capacity) produce as much milk as they should—or are you marking time and feeding a number of boarders that should be sent to the butcher? These are matters that can be put right. Delays are fatal. Why not consult

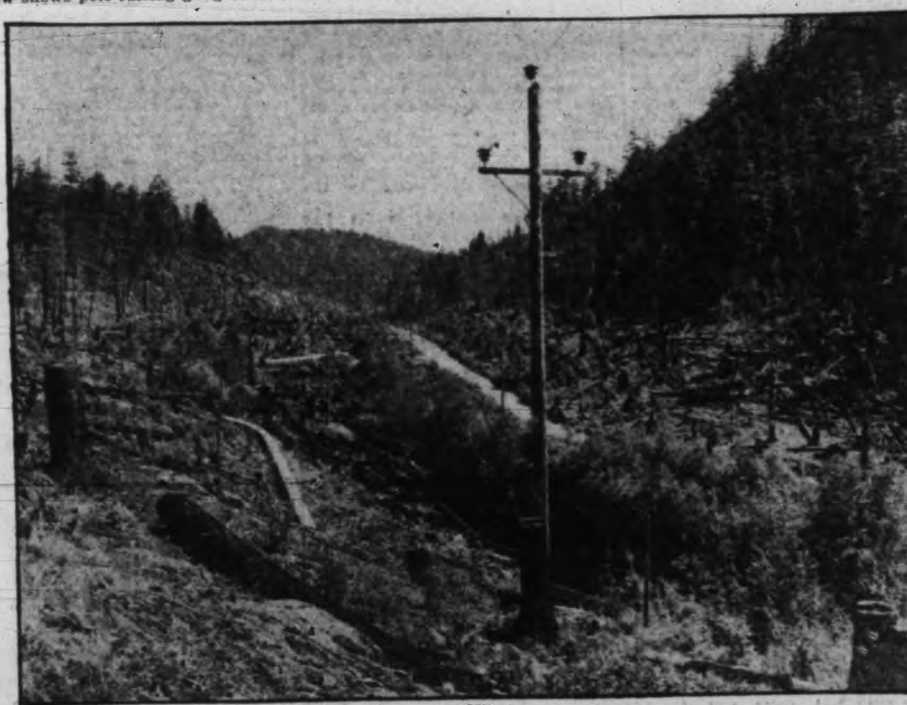

The Erick Bowman Remedy Co. Office and Factory, 518 Yates St. Particulars Will Be Furnished Upon Application to the Manager

## Good Progress on Second Transmission Line From Jordan River to Brentwood Bay

The B.C. Electric Railway, through its subsidiary company, the Vancouver Island Power Company, is building a second 60,000-volt power transmission line from Jordan River, which will be connected by way of Goldstream with the Saanich Inlet at Brentwood, where the company has an auxiliary plant. This development is in keeping with the policy of expansion on the island. A contract had been awarded for the clearing, but the company eventually arranged with the contractor to take over the work, which has progressed steadily. An assembly yard at Saseenos has been in use for gathering the necessary equipment material for distribution along the line.

View shows pole raising gang of fifteen men raising a 45-foot cedar pole. There are 461 poles in this line.

New Standard Pole Type Construction—Pin type insulators, wooden crossarms, forged steel crossarm pins. View shows new transmission line upon its own private right-of-way paralleling the existing Jordan River transmission line located upon the Sooke Road.

The City of Victoria Sooke Lake water flow line is shown in the foreground.

View shows method employed in stringing 2-9 aluminum steel reinforced cable and the single circuit telephone line upon a common pole lead. Conductor cable and telephone wire is pulled out by horses, and strung to tension by block and tackle.

## MAKE EFFORT TO OUST DEMPSTER

Saanich Ratepayers Send Charges Against Commissioner to Attorney-General

Demanding the resignation of Police Commissioner Peter W. Dempster, the Saanich Central Ratepayers' Association, last night at Tolmie School, instructed Secretary Paterson to send the following resolutions to the Saanich Police Commission and

the Municipal Council, and also to Attorney-General Manson:

"That in view of the very irregular and extremely lax administration of police department affairs during the years 1922 and 1923 as disclosed by the information furnished by order of the present Municipal Council, at the request of the Central Ratepayers' Association;

"Be it resolved, that this meeting of the Central Ratepayers' Association do formally request the resignation of Police Commissioner Dempster on the grounds that he has benefited by trading with the police department, while sitting as a commissioner;

"And we are of the opinion that a vote of censure is due the finance committee of 1923 for passing an item of \$325 without the

sanction of the police commissioners."

### DELEGATES CAUTIOUS

Resolutions asking for the reorganization of the police department, with a reduction in personnel, and a condemnation of \$50 per month as too much to pay for the use of Chief Brogan's car, fell by the wayside.

The committee which carried out the investigation was composed of President H. H. Grist, E. Orr and Secretary Paterson, and was accorded a unanimous vote of thanks.

and Soothing Syrups — No Narcotics!

Mother, Fletcher's Castoria has been in use for over thirty years to relieve babies and children of Colic, Diarrhea, Worms, Stomach and Bowels, aids the assimilation of food; giving natural sleep without opiates. The genuine bears signature of

Wm. D. Fletcher!

and G. Williams.  
Ward Six—H. E. Tanner.  
Ward Seven—E. Orr.

### CAUSE OF OUTCRY

It was stated that in February, 1922, although the Police Commission had an agreement with Chief Brogan to pay him \$50 monthly for use of his Ford car, the commissioners paid over \$400 to enable the Chief to trade in his old car for a new one. In December, 1923, a similar "trade-in" was made, Chief Brogan's certificate for \$225 being the only authority before the finance committee of the council.

Inquiries by the central ratepayers proved the lack of any minute covering this business in the records of the Police Commission.

Police Commissioner Dempster is alleged by the Central Ratepayers' Association to be financially interested in Dempster's garage, which performed over \$200 worth of repairs on police department motorcycles in 1922-1923.

## EDUCATION MUST MAKE CITIZENS. MACLEAN ASSERTS

Teachers Must Provide More Than Mere Academic Training, Minister Warns

Many Attend Closing of Summer School; Fine Exhibits Are Inspected

If education is not making citizens then it is a failure, Hon. J. D. MacLean, Minister of Education, declared in an address at the formal closing of the Summer School in the High School last night.

"Unless our system of education is such that in an adult population there is respect for the Golden Rule, for the principles laid down in the Ten Commandments and for the institutions of our country—British institutions—then our educational system has failed," Dr. MacLean asserted.

Teachers, Dr. MacLean warned, must have three objectives constantly in their mind and inculcate them in their teaching. Then, whatever the imperfections of the education system, it could not fail entirely.

Dr. MacLean recalled with satisfaction the growth of the Summer

School movement during the ten years since its inception. The course, he said, had attracted an ever-increasing number of students. This year's total of 350 being about 100 more than last year. He commended the teachers for thus showing their interest in their profession. He was particularly pleased that about twenty students had come here all the way from Alberta and Saskatchewan to attend the school.

"Outlining the work of the school, Dr. MacLean pointed out that the courses provided a generous and broad treatment of many subjects. But, he warned, it was not sufficient for people to be educated along merely academic lines. Education must look to the ultimate end, and consider the kind of citizen which was to be the product of the system, and in this connection Dr. MacLean said he had high hopes that the commission now conducting a survey of education in this Province would recommend many useful reforms.

The musical programme included singing by F. Waddington's demonstration class of children and songs by M. E. Ellis Brown's class of eighteen. A splendid display of folk dancing in the gymnasium under the direction of Miss Cotsworth was a feature of the programme. F. T. C. Wickett played for the folk dances. Large numbers of people spent the evening at the High School inspecting the fine exhibits of students' work, such as penmanship, woodwork and needlework.

### E. LONG IDENTIFIED

Montreal, Aug. 8.—Edward Long, alias "Chappie" Lewis, charged jointly with a man named Wallace with being connected with a wire-tapping scheme by means of which \$25,000 was obtained from H. L. Christen, Chicago, was yesterday positively identified by Joseph Blumenthal as the man who swindled him out of \$60,000 in St. Augustine, Florida, in 1912.

Bayley vs. Morton, ten rounds, Pantages, Tuesday.
